

48" Ride-On Aquasoaker

Petrol 18HP · Hydrostatic · Ride-On Water Removal

A ride-on water soaker designed to clear standing water quickly from cricket pitches, outfield and sports grounds so play can resume sooner. Two 4-foot stainless-steel absorption rolls draw water into twin 110-litre galvanised tanks, driven by an 18HP petrol engine through a hydrostatic transmission with variable speeds up to 6 mph.

SPECIFICATIONS

Engine	Petrol 18HP
Water soaking rolls	Two absorption rollers, 4' wide, made of rust-free stainless steel
Speed	Variable speeds in forward and reverse up to 6 mph
Transmission	Hydrostatic transmission — pump, motor, control valve
Water holding tank	110 litres x two tanks. Fully galvanised, anti-corroded drums with 10 mm perforated holes to soak water faster without overloading the engine
Foam press	Manual lever operated
Steering	Power steering, hydraulically operated by lever
Parking jacks	Manual screw type
Hydraulic equipment	Pumps, motor, valves etc. — imported German make
Water pump	Hydraulic driven
Dry weight	640 kgs
Driver seat	Adjustable
Canopy	Yes
Light	Fog light fitted
